EDUCATION

Wentworth Institute of Technology | Bachelor of Science in Mechanical Engineering
Expected August 2028 | Available for co-op January-April 2027

Relevant coursework: Design of Machine Elements, Mechanics of Materials, Manufacturing Processes, Engineering Statics

PROJECTS

Threaded Tubing Insert - Gazebo Frame Replacement
Personal project | July 2025

- Measured a failed gazebo-frame insert, modeled its replacement parametrically in SolidWorks, and refined wall thickness and infill across three FDM iterations to retain the threaded connection and press fit.
- Installed the final printed PLA part in the existing assembly without modifying adjacent components.

ThermaVest - Heated Jacket Sleeve
CAD lead, four-person team | January-April 2025

- Led CAD work on a four-person team; designed a SolidWorks enclosure around a 7.4 V, 2,200 mAh Li-ion pack, switch, and wiring harness, adding vents to promote heat dissipation.
- Supported FDM fabrication and assembly; team evaluated the prototype with FLIR imaging and a multimeter.

Manufacturing Lab - Wobbler Engine
Manual milling, green-sand casting, and assembly | 2026, completed

- Interpreted an ASME Y14.5 drawing and machined a 6061 aluminum cylinder plate on a manual vertical mill.
- Established work zero, located features with an edge finder and DRO, then drilled, reamed, and hand tapped threaded features; prepared a two-part green-sand mold.

WORK EXPERIENCE

Vans | Sales Associate | Boston, MA | November 2025-Present

- Advise customers on product construction, materials, and durability; handle purchases and restock inventory while working 12 hours per week alongside full-time study.

Shaw's | In-Store Shopper | Braintree, MA | July 2022-August 2026

- Fulfilled approximately 20 online grocery orders per shift within delivery windows, using a digital inventory system to check items and order accuracy.

SKILLS AND CERTIFICATIONS

CAD: SolidWorks parts, assemblies, drawings; CSWA

Prototyping and fabrication: FDM 3D printing; calipers; manual vertical mill

Other: FLIR thermal imaging; multimeter; Microsoft Excel; MATLAB and Python (academic familiarity); OSHA 10-Hour General Industry
